

Thank You from a Parent:

It has been about 3 years now, and our daughter, the “difficult” one, is completely potty trained, something we never thought would happen. She can communicate her needs and wants with the use of signs, pictures, and now a device. This has changed our life drastically. There is no guessing what she wants, you just ask her and she will tell you, in her own way!... Thank you will never come close to the gratitude we have for the clinic, and for all the staff.
