## What can the future look like if we shape it together?

In 2022, donors like you joined Thayer engineering students, faculty, and alumni in continuing to innovate and shape a better future for all.

Your gift helped address the needs of today, so that our students can build a better society for tomorrow. In honor of our cherished friends and supporters, we share the recently published *For Thayer 2022 Annual Report of Gifts*. View it at [dartgo.org/forthayer](https://dartgo.org/forthayer) or by scanning this QR code.

Your continued generosity fosters potential, brings ideas to life, and creates human-centered engineering solutions that solve the problems we face together.
